Please read this manual before you begin. Failure to follow this manual’s instructions may result in damage to the Mobile Power Source and/or Laser Pegs®. Not adhering to these instructions will void the manufacturer’s warranty. The packaging must be kept because it contains important information.

**WARNING:**

- **CHOKING HAZARD**-Small parts. Not for children under 3 yrs. Do not submerge in water.

**Warning:** This product contains a button battery. If swallowed, it could cause severe injury or death in just 2 hours. Seek medical attention immediately.

**WARNING:**

- **STROBE LIGHTS MAY CAUSE SEIZURES**

---

**CONSTRUCTION SET INCLUDES:**
- Mobile Power Source
- 45 Construction Parts
- 2 Laser Pegs®

---

**Laser Pegs® Parts List**

- x1 Laser Pegs®
- x2 Laser Pegs®

---

**Construction Parts List**

- x3 Peg Holes
- x2 Connecting Pegs
- x6 Batteries
- x1 Battery Compartment Cover
- x1 Battery Tab to Activate
- x1 Power Switch
- x4 Screws
- x1 Mobile Power Source

---

**Replacing Batteries**

1. Remove the Phillips head screw.
2. Remove the Battery Compartment Cover.
3. Place three LR 44 batteries in the correct position. (Batteries are to be inserted with the correct polarity).
4. Replace the Battery Compartment Cover.
5. Replace the Phillips head screw.
6. Slide Power Switch to turn on!
7. Do not mix old and new batteries.
8. Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium, NiMH) batteries!
9. Exhausted batteries are to be removed from the power base.
10. Never connect more than 4 Laser Pegs®
11. Non-rechargeable batteries are not to be recharged.
12. Rechargeable batteries are only to be recharged under adult supervision.
13. Rechargeable batteries are to be removed from the toy before being recharged.
14. The supply terminals are not to be short-circuited.
15. Do NOT THROW BATTERIES INTO FIRE!

---

**To construct with Laser Pegs®, slide two pieces together to form a connection. Slide each piece on and off smoothly.**

---

**Connecting Pegs**

- Construction Compatible

---

**Model**

**Difficulty Level**

**RESCUE HELICOPTER**

- Incredibly fast chopper designed for mountain and water rescue missions.

---

**FACTOID**

- Each Laser Peg® draws current from the batteries. Therefore, the more pegs you use, the quicker you will deplete your battery power! As the power weakens, the current will slowly fail and some Laser Pegs® will illuminate (typically the reds and yellows) and some won’t. When the Laser Pegs® dim, the Laser Pegs® are not broken, they just need stronger batteries.

---

**WARNING:**

- Change the batteries.
- 2. Use high quality batteries. They will last a little longer, but they will still deplete rapidly the more Laser Pegs® you connect!

Environmental Phenomena

* The unit may malfunction if subjected to radio-frequency interference. It SHOULD revert to normal operation when the interference stops. If
not, it may become necessary to turn the power off and back on, or remove and reinstall the batteries. * In the unlikely event of an electrostatic
discharge, the unit may malfunction and lose memory, requiring the user to reset the device by removing and reinstalling the batteries.
