

# LASER PEGS®

The Ultimate Toy For Kids®

**9025**  
EXPERIENCE SERIES  
MYTHOLOGY

For Boys And Girls  
Ages 5 And Up

**16 Models+**  
Any creation you can build

**LIGHTED**  
CONSTRUCTION SET INCLUDES:

• 20 Laser Pegs®  
• 80 Construction Parts  
• Triangle Power Base  
• Instruction Manual  
Requires 3 AA Batteries

Batteries NOT  
Included

EN71, RoHS COMPLIANT

This product complies to  
all safety requirements  
of ASTM F 963

Compatible with other construction kits

## MODEL INSTRUCTIONS

All additional model instructions can  
be downloaded at [www.LaserPegs.com](http://www.LaserPegs.com)

**Color Code** Each Laser Peg® is color coded on the circuit board inside each shape. There is No LED In The 90 Degree Peg.

Laser Pegs® link that  
allows you to connect to  
other construction kits.

## Connecting Pegs

To construct with Laser Pegs®, slide two pieces together to form a connection. Slide each piece on and off smoothly. To build away from the Triangle Power Base, use the peg cord in one of the top three peg holes to illuminate your model! The 90° pegs are essential to construction but they DO NOT ILLUMINATE.

### Press button to turn on/off

Push button to cycle  
through 3 different  
light settings.

### Connect Laser Pegs® TRIANGLE POWER BASE

To build away from the Laser Pegs®  
Triangle power base use the peg  
cord in one of the top three holes to  
illuminate your model!

When you remove a peg from another  
peg or model DO NOT PULL ON CORD!

## When Using Batteries

1. Remove screws.
2. Place three AA batteries in the correct position - as displayed inside the Triangle Power Base.
3. Push RED button to turn on!
4. Do not mix old and new batteries.
5. Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries!
6. Exhausted batteries are to be removed from the power base.
7. Never connect more than 200 Laser Pegs®
8. Non-rechargeable batteries are not to be recharged.
9. Rechargeable batteries are only to be charged under adult supervision.
10. Rechargeable batteries are to be removed from the toy before being charged.
11. Batteries are to be inserted with the correct polarity.
12. The supply terminals are not to be short-circuited.

Remove the three Philips head  
screws with a 4mm screw driver.  
**Requires (3AA) Batteries**

### Using an AC Adapter

Remove all batteries  
from Laser Pegs® power  
base before using the  
5 volt AC adapter.

When using an AC  
Adapter, **NEVER**  
place the adapter  
plug into the Tri-  
angle Power Base  
top peg holes.

\*To avoid short-circuits, keep metal objects and  
other un-authorized materials from obstructing  
the peg holes.

Never connect more than 200  
Laser Pegs® when using a 5 volt  
(2000mA) AC Adapter.

The AC adapter used with the power base are to be regularly examined for  
damage to the cord, plug, enclosure and other parts, and in the event of such  
damage, they must not be used until the damage has been repaired.

**WARNING!** Each Laser Peg® draws current from the batteries. Therefore, the more  
pegs you use, the quicker you will deplete your battery power! As the power  
weakens, the current will slowly fail and some Laser Pegs® will illuminate (typically  
the reds and yellows) and some won't. When the Laser Pegs® dim the Laser Pegs®  
are not broken, they just need stronger batteries or an AC Adapter.

You have 3 simple options...

1. Use a 5 volt AC Adapter -available from [www.LaserPegs.com](http://www.LaserPegs.com)
2. Change the batteries.
3. Use high quality batteries. They will last a little longer, but they will still deplete rapidly the more laser pegs you connect!

NAIAD--A mermaid like creature that lives in lakes and streams.
