Connecting Pegs

To construct with Laser Pegs®, slide two pieces together to form a connection. Slide each piece on and off smoothly. (Laser Pegs® pieces sold separately).

*To avoid short-circuits, keep metal objects and other unauthorized materials from obstructing the peg holes.

Slide Power Switch to turn on/off/flash

Slide Power Switch to cycle through different light settings.

underside of Zippy Do® Power Base

This Product contains a button battery. If swallowed, it could cause severe injury or death in just 2 hours. Seek medical attention immediately.

Replacing Batteries

1. Remove the Phillips head screw.
2. Remove the Battery Compartment Cover.
3. Place three (3) LR44 batteries in the correct position. (Batteries are to be inserted with the correct polarity).
4. Replace the Battery Compartment Cover.
5. Replace the Phillips head screw.
6. Slide Power Switch to turn on!
7. Do not mix old and new batteries.
8. Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium, NiMH) batteries!
9. Exhausted batteries are to be removed from the power base.
10. Batteries should be recycled or disposed of as per state and local guidelines.
11. Non-rechargeable batteries are not to be recharged.
12. Rechargeable batteries are only to be recharged under adult supervision.
13. Rechargeable batteries are to be removed from the toy before being recharged.
14. The supply terminals are not to be short-circuited.
15. Do NOT throw batteries into fire!

Remove the Phillips head screw with a 4mm screw driver.

Requires 3-LR44 Button Cell Batteries

BATTERIES ARE TO BE INSERTED INTO THE TOY BY AN ADULT ONLY!

Connects to other Laser Pegs® pieces

ONLY ADULTS SHOULD INSTALL THE BATTERIES

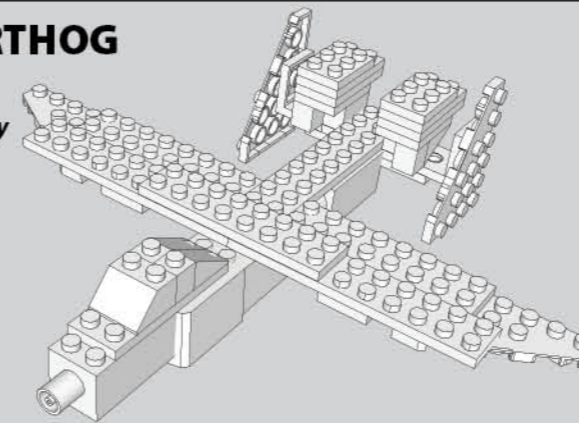

WARTHOG: A twin-engine, straight-wing aircraft known as "the most survivable plane ever built".

Environmental Phenomena

*The unit may malfunction if subjected to radio-frequency interference. It SHOULD revert to normal operation when the interference stops. If not, it may become necessary to turn the power off and back on, or remove and reinstall the batteries.

*In the unlikely event of an electrostatic discharge, the unit may malfunction and lose memory, requiring the user to reset the device by removing and reinstalling the batteries.
